Case No. 18-13359
Reporting Period: 06/01/2019 - 06/30/2019

## **General Notes**

**Compliance with GAAP:** The financial statements and supplemental information contained herein are unaudited, preliminary, and may not comply with generally accepted accounting principles in the United States of America ("U.S. GAAP") in all material respects.

**Reporting Period:** Unless otherwise noted, the balance sheet information provided herein is current for each Debtor as of June 30, 2019. The statement of operations reflects transactions during June 2019 for all Debtors. Note that the Debtors have historically prepared their financial statements on a quarterly basis rather than monthly. As such, the financial statements presented here are non-standard for the Debtors and are subject to change.

Accuracy: The Debtors have prepared the financial statements based on the information reflected in the Debtors' books and records. However, inasmuch as the Debtors' books and records have not been audited, and monthly financial statements are non-standard for the Debtors as mentioned above, the Debtors cannot warrant the absolute accuracy of these documents. The Debtors have made a diligent effort to complete these documents accurately and completely. To the extent additional information becomes available at a later date indicating prior period adjustments or other disclosures are necessary, the Debtors will provide such information as appropriate.

**Results Not Reflective of Future Performance:** The results of operations contained herein are not necessarily indicative of results which may be expected from any other period or for the full year and may not necessarily reflect the results of operations, financial position, and cash flows of the Debtors in the future.

Liabilities Subject to Compromise – As a result of the chapter 11 filing, the payment of prepetition indebtedness is subject to compromise or other treatment under applicable provisions of the Bankruptcy Code. The determination of how liabilities will ultimately be settled and treated cannot be made at this time. Accordingly, the ultimate amount of such liabilities is not determinable at this time. The amounts currently classified as Liabilities Subject to Compromise are preliminary, subject to future adjustments, and may be settled for greater or lesser amounts, depending on Court actions, further developments with respect to disputed claims, determinations of the secured status of certain claims, the values of any collateral securing such claims, rejection of executory contracts, continued reconciliation or other events. As additional information becomes available and further research is conducted, the allocation of liabilities between prepetition and postpetition periods may change.

**Bank Account Reconciliations & Cash Disbursement Journals** – The Debtor affirms that bank reconciliations are prepared for all open and active bank accounts on a monthly basis.

#### <u>Notes</u>

<sup>(1)</sup> Revenue during this reporting period was generated from liquidation of metal inventory at market prices with applicable premiums or discounts. All intercmopany transactions among the entities have been eliminated.

<sup>(2)</sup> The Debtors do not maintain a traditional financial costing/perpetual inventory system, and as such historically have not calculated COGS directly in the general ledger. Further, the Debtors do not prepare monthly financial statements. For purposes of this analysis, COGS has been estimated presuming the cost of metal sold comprises ounces at market price less premiums, treatment charges, and retention amounts assessed on raw material received.

<sup>(3)</sup> A late payment on RTMM's building lease could trigger a default, requiring a penalty payment in excess of \$43,000, an amount equal to the remaining rent under the existing lease term (August 2019).

<sup>(4)</sup> As restructuring-related items are uncertain, no accrual was recorded during the reporting period. Prior to the petition date, the Debtors funded retainers as shown on the balance sheet for restructuring professionals. Going forward, the Debtors will be reporting both draws against the retainers and cash payments related to restructuring expenses.

In re Republic Metals Refining Corporation (Miami Metals I LLC), et al Debtor

Case No. 18-13359
Reporting Period: 06/01/2019 - 06/30/2019

#### <u>Notes</u>

<sup>(1)</sup> Revenue during this reporting period was generated from liquidation of metal inventory at market prices with applicable premiums or discounts. All intercmopany transactions among the entities have been eliminated.

<sup>(2)</sup> The Debtors do not maintain a traditional financial costing/perpetual inventory system, and as such historically have not calculated COGS directly in the general ledger. Further, the Debtors do not prepare monthly financial statements. For purposes of this analysis, COGS has been estimated presuming the cost of metal sold comprises ounces at market price less premiums, treatment charges, and retention amounts assessed on raw material received.

<sup>(3)</sup> A late payment on RTMM's building lease could trigger a default, requiring a penalty payment in excess of \$43,000, an amount equal to the remaining rent under the existing lease term (August 2019).

<sup>(4)</sup> As restructuring-related items are uncertain, no accrual was recorded during the reporting period. Prior to the petition date, the Debtors funded retainers as shown on the balance sheet for restructuring professionals. Going forward, the Debtors will be reporting both draws against the retainers and cash payments related to restructuring expenses.

#### Notes

<sup>(1)</sup> All intercompany assets/liabilities/equity among the entities have been eliminated. J&L Republic and R&R Metals are equal owners of RTMM; the value of their respective investments in RTMM and their own paid-in capital are combined into RTMM. RMC Diamonds and Republic High Tech Metals are not active entities.

<sup>(1</sup>a) Cash equivilatens are calculated on an accrual basis. Outstanding checks are factored in the book cash balance.

<sup>(2)</sup> Other Current Assets represent amounts due from third-parties for estimated quantities of material shipped to them for additional processing. These values are based on market prices as of the reporting date, and remain uncertain until final assay analyses are performed and agreed, which in certain cases can take months and can vary materially from estimated material content. Note that in November 2018, other current assets and accounts receivable were reported as a combined figure, but in order to reflect a more accurate accounting for these items, we have separated into two separate balance sheet items in December 2018 and remain in other current assets in June 2019.

<sup>(3)</sup> Inventory balances reflect market prices as of the reporting date. The sale and collectability of the proceeds are highly uncertain

<sup>(4)</sup> Retainers are detailed on MOR 1(b)

<sup>(5)</sup> Prepaid Expenses comprised primarily of prepaid commercial insurance premiums and prepaid taxes.

<sup>(6)</sup> Metal Obligations - Payables reflects estimated amounts owed to mines and other providers of material for refining. Estimates are based on quantities received, valued at market prices as of the reporting date.

<sup>(7)</sup> Bank Debt reflects senior secured loans held by Rabobank, ICBC, Techemet, Bank Hapaolim, INTL, Mitsubishi, Brown Brothers Harriman, and Hain Capital
